

March 23, 2020

To our valued guests, patrons and all other members of the community:

For the past 6 years, all of us at La Buona Vita have taken great pride in the role we have played serving high quality northern Italian cuisine to the local community and beyond. It has been our privilege and pleasure to do so, and we sincerely thank you for that opportunity. After thoughtful analysis and a heavy heart, it is with great disappointment I inform you that effective immediately, the restaurant is permanently closed.

The increased concern related to the COVID -19/Coronavirus, the Governor's mandate, combined with limited resources has made it the perfect storm for businesses, especially restaurant businesses and even more so, for small locally owned restaurant businesses. Disappointment and frustration become heightened when left with no choice but to close our business serving the community, a business to which we were not only passionately devoted but extremely appreciative.

We are very grateful for the confidence and support you have shown us over the years.
